CALENDAR YEAR TOTAL RETURNS AT NAV (%)

	2018	2019	2020	2021	2022	2023	2024	2025
NAV	-9.47	26.22	23.57	17.91	-19.03	23.21	17.58	21.39

Reflects the percent change in net asset value (NAV) of Class A shares and includes the reinvestment of all distributions. Performance is shown for each calendar year. Performance of Class A shares with sales charge reflects the reinvestment of all distributions and includes initial maximum sales charge. Certain purchases of Class A shares without a sales charge are subject to a contingent deferred sales charge (CDSC). The CDSC is not reflected in the performance shown. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.

Barron's Top Fund Families of 2025, February 26, 2026, Lord Abbett Funds ranked 5 out of 45, 13 out of 42, 9 out of 42 mutual fund families within the overall category for the 1-, 5- and 10-year periods ending 12/31/2025, respectively.

The Global Equity Fund A share rankings within the Lipper Global Multi-Cap Growth Fds Average as of 09/30/2026 for the one-year time period was 58% (78/135); and five-year, 23% (30/130). Source: Lipper Analytical Services. Lipper Funds Average ranking reflect all share classes within the category and are based on total return and do not reflect the effect of sales charges.

Effective November 1, 2021 the Lord Abbett Global Equity Research Fund changed its name to Lord Abbett Global Equity Fund. There was no change to the Fund's investment strategy.

[1]Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown.

[2]Reflects the average net expenses of Class A shares of all funds within the Lipper Global Multi-Cap Growth Fds Category based on Lipper data available.

Risks to Consider: The value of investments in equity securities will fluctuate in response to general economic conditions and to changes in the prospects of particular companies and/or sectors in the economy. The foreign securities in which the Fund primarily invests generally pose greater risks than domestic securities, including greater price fluctuations and higher transaction costs. Foreign investments also may be affected by changes in currency rates or currency controls. With respect to certain foreign countries, there is a possibility of nationalization, expropriation or confiscatory taxation, imposition of withholding or other taxes, and political or social instability that could affect investments in those countries. These risks can be greater in the case of emerging country securities. Investments in either growth or value stocks may shift in and out of favor for long periods of time, depending on market and economic conditions. The Fund is subject to the risks associated with derivatives, which may be different from and greater than the risks associated with investing directly in securities and other investments. The Fund may invest in exchange-traded funds ("ETFs"), investments in ETFs are subject to a variety of risks, including the risks associated with a direct investment in the underlying securities that the ETF holds.

Barron's Disclosure: Used with permission. ©2026 Dow Jones & Company, Inc. Source: "Barron's Best Fund Families of 2025," February 26, 2026. Barron's rankings are based on asset weighted returns in funds in five categories: general equity, world equity (including international and global portfolios), mixed asset (which invest in stocks, bonds and other securities), taxable bond, and tax-exempt (each a "Barron's ranking category"). Rankings also take into account an individual fund's performance within its Lipper peer universe. Lipper calculated each fund's net total return for the year ended December 31, 2025, minus the effects of 12b-1 fees and sales charges. Each fund in the survey was given a percentile ranking with 100 the highest and 1 the lowest in its category. That ranking measured how a fund compared with its peer "universe," as tracked by Lipper, not just the funds in the survey. Individual fund scores were then multiplied by the 2025 weighting of their Barron's ranking category as determined by the entire Lipper universe of funds. Those fund scores were then totaled, creating an overall score and ranking for each fund family in the survey in each Barron's ranking category. The process is repeated for the five- and ten-year rankings as well.

The Fund's portfolio is actively managed and is subject to change.

[†]The net expense ratio takes into account contractual fee waivers/expense reimbursements that currently are scheduled to remain in place through 02/28/2027. For periods when fees and expenses were waived and/or reimbursed, the Fund benefited by not bearing such expenses. Without such fee waivers/reimbursements, performance would have been lower.
