

INFLATION FOCUSED FUND

LOWER EXPENSES - CLASS A

Fund Expense Ratio¹ 0.66%
 Category Average² 0.81%

GOAL

The Fund seeks to deliver total returns that exceed the rate of inflation in the U.S. over a full inflation cycle and current income by combining investments in inflation-linked derivatives with a portfolio of fixed income securities.

PORTFOLIO CHARACTERISTICS

Average Effective Duration: 2.2 Years

Average Life: 2.4 Years

Number of Issues: 1,462

AVERAGE ANNUAL TOTAL RETURNS (%) AS OF 03/31/2019

CLASS A SHARES	YTD	1 YEAR	3 YEARS	5 YEARS	SINCE INCEPTION	EXPENSE RATIO ¹
Net Asset Value (without sales charge)	2.60	0.88	2.82	-0.03	0.50	0.66%
Maximum Offering Price (with 2.25% sales charge)	0.29	-1.37	2.05	-0.48	0.21	

CALENDAR YEAR TOTAL RETURNS AT NAV (%)

	2012	2013	2014	2015	2016	2017	2018
NAV	9.87	-1.76	-5.20	-2.22	4.96	1.33	-1.28

Reflects the percent change in net asset value (NAV) of Class A shares and includes the reinvestment of all distributions. Performance is shown for each calendar year. Performance of Class A shares with sales charge reflects the reinvestment of all distributions and includes initial maximum sales charge. Certain purchases of Class A shares without a sales charge are subject to CDSC. The CDSC is not reflected in the performance shown. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.

* Among 57 qualifying fund families. Based on net total return of the one-year period ending 12/31/2018. Barron's Best Mutual Fund Families, March 11, 2019, Lord Abbett Funds ranked 21 out of 57, 3 out of 55, 3 out of 49 mutual fund families within the taxable bond category for the 1-, 5- and 10- year periods ending 12/31/2018, respectively. Barron's Best Mutual Fund Families, March 10, 2018, Lord Abbett Funds ranked 3 out of 59, 1 out of 54, and 1 out of 50 mutual fund families within the taxable bond category for the 1-, 5- and 10- year periods ending 12/31/2017, respectively. Barron's Best Mutual Fund Families, February 11, 2017, Lord Abbett Funds ranked #1 in the Taxable Bond Category among 61 fund families based on the net total return of the one-year period ending 12/31/2016, respectively. Barron's Best Mutual Fund Families, February 6, 2016, #21 in the Taxable Bond Category among 67 fund families based on the net total return of the one-year period ending 12/31/2015. Barron's Best Mutual Fund Families, February 7, 2015, #1 in the Taxable Bond Category among 65 fund families. Based on the net total return of the one-year period ending 12/31/2014. Barron's Best Mutual Fund Families, February 8, 2014, #3 in the Taxable Bond Category among 64 fund families. Based on the net total return of the one-year period ending 12/31/2013. Barron's Best Mutual Fund Families, February 11, 2013, #2 in the Taxable Bond Category among 62 fund families. Based on the net total return of the one-year period ending 12/31/2012. Barron's Best Mutual Fund Families, February 6, 2012, #4 in the Taxable Bond Category among 58 fund families. Based on the net total return of the one year period ending 12/31/2011. **The Inflation Focused Fund Class A share rankings** within the Lipper Inflation Protected Bond Funds Average as of 03/31/2019 for the one-year time period was 95% (218/229); and five-year, 95% (157/165). Source: Lipper Analytical Services. Lipper Funds Average ranking reflect all share classes within the category and are based on total return and do not reflect the effect of sales charges.

¹ Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown.

² Reflects the average net expenses of Class A shares of all funds within the Lipper Inflation Protected Bond Funds Category based on Lipper data available.

A Note about Risk: Although the Fund invests in inflation-linked investments, there is no guarantee that the Fund will generate returns that exceed the rate of inflation in the U.S. over time. During periods of deflation or when inflation is lower than anticipated, the Fund is likely to underperform funds that hold fixed income securities similar to those held by the Fund but do not hold inflation-linked investments. The Fund may invest substantially in inflation-linked derivatives and other types of derivatives and is exposed to the risk that the value of a derivative instrument does not move in correlation to the value of an underlying security, market index or interest rate, or moves in an opposite direction than anticipated by the Fund. Investing in derivatives also involves greater liquidity, leverage, and counterparty risk. Because derivatives may involve a small amount of cash relative to the total amount of the transaction, the magnitude of losses from derivatives may be greater than the amount originally invested by the Fund. In addition, the Fund must also be able to correctly forecast market movements and other factors to be successful with its derivatives investments. The Fund is subject to the general risks associated with investing in fixed income securities, including market, credit, liquidity, and interest rate risk. These factors can affect the Fund's performance.

The Fund's portfolio is actively managed and is subject to change.

CREDIT QUALITY DISTRIBUTION

Ratings (other than U.S. Treasury securities or securities issued or backed by U.S. agencies) provided by Standard & Poor's, Moody's, and Fitch. For certain securities that are not rated by any of these three agencies, credit ratings from other agencies may be used. Where the rating agencies rate a security differently, Lord Abbett uses the average rating based on numeric values assigned to each rating. Ratings range from AAA (highest) to D (lowest). Bonds rated BBB or above are considered investment grade. Credit ratings BB and below are lower-rated securities (junk bonds). High-yielding, non-investment-grade bonds (junk bonds) involve higher risks than investment-grade bonds. Adverse conditions may affect the issuer's ability to pay interest and principal on these securities. A portion of the portfolio's securities may not be rated. Breakdown is not an S&P credit rating or an opinion of S&P as to the creditworthiness of such portfolio. Ratings apply to the creditworthiness of the issuers of the underlying securities and not the fund or its shares. Ratings may be subject to change.

GLOSSARY OF TERMS

Effective Duration is the change in the value of a fixed income security that will result from a 1% change in market interest rates, taking into account anticipated cash flow fluctuations from mortgage prepayments, puts, adjustable coupons, and potential call dates. Duration is expressed as a number of years, and generally, the larger a duration, the greater the interest-rate risk or reward for a portfolio's underlying bond prices. Where applicable, securities, such as common or preferred stock, convertible bonds and convertible preferred stock, ETFs and ADRs, and CPI swaps and related futures, are excluded from these calculations.

Average Life measures how long it will take, on average, to receive the repayment of the principal amount on a debt security. Average life is often used in connection with mortgage-backed securities as a measurement of the length of time, on average, before the underlying mortgages are paid, refinanced, or otherwise retired.

Lipper Inflation Protected Bond Funds Average is based on a universe of funds with similar investment objectives as the Fund. Source: Lipper Analytical Services.

Barron's, "Best Fund Families of 2018," March 11, 2019. Barron's rankings are based on asset-weighted returns in five categories — US equity funds; world equity funds; mixed equity funds; taxable bond funds; and tax-exempt funds. To be included for Lipper/Barron's Fund Survey, each fund in the survey must have had at least three funds in Lipper's general equity category, one world equity category, one mixed-asset, two taxable-bond funds and one national tax-exempt bond fund. Rankings also take into account an individual fund's performance within its Lipper peer universe. Each fund's return was measured against those of all funds in its Lipper category, resulting in a percentile ranking which was then weighted by asset size, relative to the fund family's other assets in its general classification. Lipper calculated each fund's net total return for the year ended December 31, 2018, minus the effects of 12b-1 fees and sales charges. Barron's Fund Family Rankings are awarded annually.

Investors should carefully consider the investment objectives, risks, charges, and expenses of the Lord Abbett Funds. This and other important information is contained in the Fund's summary prospectus and/or prospectus.
